

Cargo

DB Cargo Eurasia

Your partner on the Eurasian corridor.

To combine climate protection and economic growth has been the biggest challenge of the 21st century: Rail freight offers both. It is our mission is to transport goods from and to Asia in the most climate friendly way. This is good for the economy, the climate, and people.

Costs saving

Rail Freight saves 75% of costs in comparison with Air Freight

Lead time

Rail Freight is two times faster than Ocean Freight

Total lead time: ø 15-18 days

Full Time Schedule Train: 12 days

Flexibility

Customized route is extremely difficult for Air and Ocean Freight

Traffic Rights application and new route design is more complicated

DB Cargo operates the largest European railway network in over 18 countries

Safety & Tracing

Monitoring system of all trains 24/7

More than 1,000 km per day with hardly any stops

Dedicated rail lines and infrastructure, operational and loading safety standards
